

April 8, 1944.

Coach Marion Wools,  
Wyandotte High School,  
Kansas City, Kansas.

Dear Marion:

I am sending you a carbon copy of the letter that I have written Alex Zych. If there is any way that I can help further in the case, please let me know.

Also, I am tremendously interested in Owen Peck, the boy about whom you spoke last Thursday. I believe you told me that he is 4F, did you not? If you could give me some more information so that I could have a conference with him if he is interested in attending school, I would appreciate it. I know that you know my idea of inter-collegiate athletics. I am always glad to help a boy further his educational advantages.

There would be plenty of work for him here - all that he would care to do. If he would care to major in Physical Education we can use him in our department consistently and he could have as many hours as he would be free. With so many men in the service there is a great demand for efficient helpers. And since his interest would lie in this field it would be fine for both of us. I will appreciate a reply at your convenience.

It was good to see you and to meet with such a sterling group of youngsters as you have on your team. Congratulations on your splendid season.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
