Mr. A. D. Miller, Principal, Lakin High School, Lakin, Kansas.

Dear Principal Miller:

Yes, indeed, I do remember you and I am mighty happy to hear from you.

I wrote Clyde Wiley that due to the war situation our winter term started at the University November 1 and it closes on March 1. So that really shuts him out of basketball, because it is too late to enter this semester. Had I heard from Clyde along in the fall I would have encouraged him to enter November 1, but now it is too late.

Doubtless he will want to go to Hays because the teachers' college are all on a quarterly basis, and it would be easy for him to enter for basketball.

I do appreciate your kindness in writing me, and I would like to have him enter next year if he is not located.

You might want to know that Leon Bauman graduated from the University of Kansas Medical School this last October and now has his M.D. degree. I am not sure where he is interning, but I am sure that Leon will make a fine physician. He was city milk inspector here before entering upon his medical course.

With all good wishes, I em

Sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

Mr. Clyde Wiley, Lakin, Kansas.

Dear Clyde:

Our new term at the University started November 1st. Due to war conditions, our semesters have changed. Our next semester starts March 1st, and by that time our basketball season, of course, will be over.

I will be happy to learn if you are interested in attending the University of Kansas when the March semester begins.

I note by the clippings which you enclosed that you certainly have been rolling them in. I notice, too, that Schnellbacher, Sublette star center, made 30 points. Otto Schmellbacher, his older brother, played one fine season for us here before he was called in the service. He has two left upon his return.

I am sending you our basketball schedule and would be happy to have you as our guest either at the Nebraska game on January 12, or the Iowa State game on January 27. Won't you write me and tell me if you can make one of these dates? I would be happy to talk to you, and feel that you would like the University very much.

You state that you are trying to decide what college to attend. In what do you expect to major? Or are you just interested in getting a college degree?

Hoping to hear from you in the near future, I am

Sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

Large individual scoring totals were made in western Kansas basketball this past week with Wiley, Lakin forward, hitting 39 points, and Schnellbacher, Sublette's star center, potting 30 points. Hurst, Lakin, didn't do so bad with 22 points.

We don't have box scores of the Lakin-Ingalls and Lakin-Coolidge games available, but in six of Lakin's eight games, Hurst and Wiley have scored 217 points between them out of their team's total of 308. In these six games Wiley has averaged 20 1/3 points per game and Hurst has averaged 15 5/6 points a game Where can you find a pair of higher scoring forwards in the state?—They are both juniors, too.

Dear Mr. Quigley:

Carlson is definitely coming to Kansas University as soon as he can get reservation. I believe that you will find that he is a very excellent boy and will make a great basket ball and baseball player in time. He certainly has a wonderful attitude. He comes from a rather poor family and will have to make his own way at Kansas University. He does not expect a great deal and is willing to work for anything that he gets. I told him that you would get him a job for his room and board and would help him in anyway you could.

He is looking forward to meeting you and Dr. Allen and I know that neither of you will be disappointed in him.

Sincerely yours,

Jim Fraley

Dear Coach Ward:

I certainly appreciate your fine cooperation. Don Heiland came down this week and the coaches are mighty well pleased with him. He is coming back this week-end, we think.

I appreciate your suggestion to Don that he come on to school and wait until he is called, and not say anything about it to his board. That is fine headwork.

Thanks for the name of the boy at Attica. All the coaches deeply appreciate your fine cooperation.

Mr. O. F. Schully, Jr., 225 So. Olympia, New Orleans, La.

Dear Foerster:

I regret that I have not answered your letter sooner.

A number of times I have endeavored to get hold of the Director of the State Board of Health and Sanitation, and also the Director of the State Geological Survey. These two professors have been out of town or out of the office at the various times that I have endeavored to contact them. It was necessary for me to work with our Dean of the School of Engineering to be directed to the proper sources of job-letting.

I now find that we are in a very good position to get these drafting jobs that these two people have. I asked one of the directors how much they paid an hour and he said that they put student assistants on at \$50.00 a month. Then I asked the other director and he said, "We will have plenty of work", but did not give me the amount. However, I feel rather optimistic in regard to your case. You will understand that I could not afford to guarantee expenses. I have never done that for an athlete or a non-athlete. But I feel fairly sure that you can get as much drafting work as it will be possible for you to do, considering that you are a student.

I take it that you will want to study architectural engineering, but I do not know. It might be possible that you want to study to obtain a bachelor's degree in Education with a major in Physical Education. I am sending you University catalogues and also a brochure on our Physical Education major course.

I am sending you the estimated cost of tuition for the year, with the health fee and activity fee included:

Matriculation fee (payable but once)	\$20.00
Incidental fee (each semester)	75.00
Health fee (each semester)	5.00
Activity fee (fall semester)	7.50

Our regular fall semester opens November 1. We have now a short six-weeks course which aids us in coordinating our Army and Navy courses, so our regular fall term opens November 1, although this is much later than our usual opening around the middle of September.

You would be eligible for varsity basketball if you should enter at that time. The freshman rule is not in operation here for the war period. I would be glad to hear from you as to your studies and your intentions. I believe you can make it, and I am quite sure you will like the place.

Again let me repeat that with your capabilities and with your desire to get an education, I believe that you will want to take a chance. I pledge you my full cooperation in helping you in every possible way.

With all good wishes, I am

Sincerely yours,

Mr. Forrest C. Allen B.B. Coach Kansas University Lawrence, Kansas

Dear Mr. Allen,

Thought I would inform you of a High School boy from our neighboring town, Moundridge, who plans on attending K.U. this year.

This boy is Orville Kaufman. This Kaufman boy has played guard on the first team for Moundridge the last 4 years. He has a good playing record and I believe he is the type of player and boy that you would like to have. No doubt you will meet him at K.U. soon after school starts and I hope that he proves to be a good prospect.

Glad to see Mr. Quigley at K.U. and wish you the best of luck for the coming school year.

Yours fon Dewey and Bricker,

Alvin B. King

ABK W

I deeply appreciate your courtesy in writing me, giving me the information on your 18 year old 4F chap who is affected with asthma. We do not have any scholarships, but we have work available for boys who want to work. The way I put it, his work is commensurate with the individual's desire and ability.

Doubtless you know that we do not have any electric clock winding jobs or any scholarships. But if a boy really wants to go to school we provide an opportunity and a job for him, but of course he has to work like anyone else. We have a fine Engineering School here and I am sure that he would obtain very excellent training. His drafting alone would provide remuneration of a higher order than common labor, and I could obtain the work for him without any difficulty if he has this added talent.

We are sending you a catalog of the Engineering School which you can give to the boy. If he sees fit to come to K.U. we will be very glad to help in any way possible.

Very sincerely yours,

Director of Physical Education, Varsity Basketball Coach.

Dr. "Phog" Allen University of Kansas Lawrence, Kansas

Dear Dr. Allen:

In view of the fact that I am a former student of the University of Missouri, and a great admirer of yours, in spite of the many defeats handed Missouri by your teams on the basketball court, I'm taking the liberty of writing you to find out some information.

At the present time, I am the Athletic Director of this plant. Before coming to New Orleans, I worked with Larry Winn, Jr., whom I believe you know very well, at North American Aviation in Kansas City.

To get to the point - There is a boy employed by this company who plans to attend college this fall. He's 18, and 4-F because of asthma. The asthma seldom bothers him, but still he has it, and that is enough to keep him out of the services. He is a fine potential basketball player, and under the right teaching and supervision, could turn into a great basektball player. His heart and soul is in every game, and that, in my opinion, goes a long way in making a basketball player. He would welcome the training I know you give your boys.

This boy, while he has saved some money, would need the assistance of a scholarship or some job arrangement. He is employed here as a draftsman, and plans to continue this as an Engineering student.
