Since he is especially anxious to continue his basketball training under you, has Kansas University anything to offer in the way of scholarships, or jobs, that would enable him to go to Lawrence?

While he, of course, is intently interested in receiving a college education, his prime interest in life is basketball, and I know he would be a valuable addition to your squad.

Would you write me, at your convenience, and tell us the verdict? Anything you can do would be appreciated very much.

Thanking you in advance for your trouble,

Sincerely,
