

July 20, 1944.

Mr. Owen C. Peck,  
P. O. Box 2457,  
San Antonio 6, Texas.

Dear Owen:

I am happy to know that you are planning to attend the University this fall.

The fall term of six weeks begins September 13, and it is expected that most of the civilian students will enter at this time, then they will be ready to go on into the winter semester of sixteen weeks which begins on October 30.

But whether you come for the term beginning September 13, or wait until the end of October, we will have plenty of work for you. I have already planned for your work so it will not be necessary for you to worry about that in the least. I would like to know what course you plan on taking.

Your coach, Marion Wools, had so many fine things to say about you that I know we will not be disappointed in your ability to do the type of work we have for you. I am sure that you will like the place and I know that we will like you. If plans work out we plan to use you on our intramural organization, and you will fit splendidly into that. It provides plenty of work and challenging activities. Of course, we don't expect you to take too much time from your studies.

If there is any other information that you would like to have, please feel perfectly free in writing so that you may satisfy every desire of curiosity so far as enrollment and work are concerned.

Very cordially yours,

Director of Physical Education,  
Varsity Basketball Coach.
