

department.

I have been practicing pivots and shots this summer and have been studying English. I work at the swimming pool and have time to do both in the evening.

I hope I have made it clear to you that my first thought is of an education, after all, that is one's greatest chance and I don't intend to throw mine away.

I thank you very much and I hope to make good at K. U. - providing I enter there.

Very Sincerely Yours
Ellis Yiolet
