

# POWHATTAN RURAL HIGH SCHOOL

JOHNNIE CORRIGAN, Principal

POWHATTAN, KANSAS

March 26

As for Bruce Holman he is a dandy boy who planned three days before school started to enroll at K. U. but some how or some one roped him in down at Kansas State the very last minute. Bruce's father is dead and he has to scratch for every cent of his education and no doubt some one convinced him at the last moment that he could do that at Kansas State easier than at any other place.

Thanks for your congratulations and I will pass them right back to you for the good teams you always have. If I have had any success in coaching I attribute it to the things I stole from you when I was a Freshman basket ball player and later in watching your practices every evening and also in attending your coaching class for two or three summers. I think your personality traits in handling men and boys, your frankness and firmness have been great goals for me to shoot at and without a question have enabled me to handle many problems which I might have not solved had I not had those valuable contacts.

If you desire any other information in regard to this Pfister boy or any one else in this part of the State feel free to demand my service.

Yours very truly,

Johnnie Corrigan
