Mr. Jerome Adams  
723 West Thomas Avenue  
Shenandoah, Iowa

Dear Mr. Adams:

Please pardon my long delay in answering your letter in regard to your son Don attending K. U. It is good to hear from Harry Ott and I am always glad to hear from a Firestone dealer because I enjoy being one of them.

Your son Don certainly has a fine record in basketball as well as in his studies and both of these things appeal equally in strength in Dr. Allen's attitude toward the men on the squad. Dr. Allen requires a high scholastic standing of his boys and he teaches them many things other than basketball that will be of great value to them in later life. I hope that Don can have the privilege of this association, he is not only a fine coach but a fine aggressive gentleman.

I feel that I should give you some information regarding the cost of attending K. U. As an out-of-state student the tuition would be \$75.00 each semester or a total of-----\$150.00  
Matriculation fee (pay only once)----- 20.00  
Activity fee per year----- 12.50  
Hospital fee per year----- 10.00  
Total----- \$192.50

Board and room at present time will cost approximately \$30.00 per month, however, this figure might be slightly higher next fall due to anticipated increase in prices as a result of a war effort plant soon to be located near Lawrence.

I believe Don can be assured of a job so that he can earn \$20.00 per month by working two hours per day and four hours Saturday morning at thirty-five cents per hour.

While K. U. does not have the policy nor the funds to subsidize its athletes like some schools, I believe, that K. U. offers other advantages that makes this cost worthwhile if a student has the means to attend here.
