Beverly Hills, Calif.

Dear John:

I have heard some very fine things concerning your sterling ability as a tennis player. I also hear that you are an excellent basketball player.

Of course you have been in California long enough now to get the California enthusiasm, but if you should ever plan to come back to the country of your dad we would be happy to have you at the University of Kansas.

Someone said that you may have the ability of Tus Ackerman if you continue to develop. Get your father to tell you what he thinks of Tus Ackerman.

I am happy to see you making such a fine record and I will watch your success with interest. Congratulations, and good luck!

Very sincerely yours,
