Dr. F. C. Allen  
Lawerence, Kansas

Dear Doctor Allen:

I am forwarding information relative to a basket-ball player--Everett Bybee. This boy graduates from Uniontown High School this year. He has averaged between 18 and 20 points per game for the season, he is 6ft. 4 inches in height and is an excellent player. He has a clean character. I beleive that he would be a great asset to your squad. I don't know his plans, but his parents would be unable to finance the expence of going to a University.

I hope that you are able to use the above information to his advantage as well as having a good basket-ball team for K. U.

Fraternally Yours,

*E. C. Baum M.D.*
