

March 20, 1941

Mr. Charles Cooper
Saluda, North Carolina

Dear Charles:

Your good father sent me a clipping which shows your photograph and lists the exceptional campus activities that you have indulged in. May I congratulate you on the fine academic record and the extra-curricular record that you have made.

I am sure that you evaluate the worthwhile things in school because the fact that you are carrying five subjects and doing this other work so well shows me that you are well organized. I congratulate you and I trust that we may have the pleasure of meeting you sometime. I have been interested in your knee and I trust that you have had no further trouble with it.

We have had the good fortune of fixing many chronic injuries of the knee. If your knee continues to bother you and if there is any way for us to help you, it will be a pleasure for us to do it gratuitously.

Wishing you continued success, I am,

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach
