Mr. Clarence Cauner
Shawnee Mission High School
Shawnee Mission, Kansas

Dear Clarence:

We certainly enjoyed having you with us at our annual basketball "get-to-gether" on the morning of our Kansas Relays. I trust you enjoyed the Relays in the afternoon.

We would be very happy to have you here at the University next fall, Clarence, and since you're too young to be effected by the draft, you'll surely be making plans to attend college. *MP*

Let me know if there's any information you desire concerning your college course, and I shall be happy to give the same.

Trusting to hear from you, I am,

Sincerely yours,

Director of Physical Education and
Recreation - Varsity Basketball
and Baseball Coach.

May 13th, 1941

Mr. Gerald Bramon
Uniontown, Kansas

Dear Gerald:

We were so glad to have had you with us at our third annual basketball "get-to-gether" on the morning of our Kansas Relays. The boys on the Varsity and Freshman teams have often spoken about the great time they had when you were here.

In view of the fact that you won't have to be concerned about being called for the draft, I'm wondering if you aren't making plans to attend college this next fall.

We would be happy to have you with us here at the University, and if there's any information you desire concerning your college course, I shall be happy to comply.

Trusting to hear from you, I am,

Sincerely yours,

Director of Physical Education and
Recreation--Varsity Basketball and
Baseball Coach.

Mr. Bob Dalton
Wichita, Kansas

Dear Bob:

Just a note to let you know how much we enjoyed having you with us at our Third Annual Basketball "get-to-gether" on the morning of the Kansas Relays.

Bob, have you made plans as to where you are going to attend College this next fall? Of course you're too young to be effected by the draft, so no doubt you are planning to grasp the opportunity of attending college now while you may.

I just want you to know, Bob, that I shall be happy to help you with your college course, should you desire my assistance.

Hoping to see you next fall, I remain,

Sincerely yours,

Director of Physical Education and
Recreation-Varsity Basketball and
Baseball Coach.

April 11, 1941

Mr. Leaford F. Cushenbery
Attorney at Law
Medicine Lodge, Kansas

Dear Mr. Leaford:

Thank you for your good letter of April 10 giving me full information on Bill Forsyth. I am writing him this morning and inviting him up for the Relays, and if there are any other senior boys there whom you feel might be offended by not being asked, I would be glad to extend the same invitation to them. Won't you kindly advise me in this matter?

It was a genuine pleasure, I assure you, to attend your splendid banquet and meet your fine people. I was much impressed with Bill Forsyth's father and mother. I had a nice visit with Bill's mother and she was a delightful woman. She certainly understands boys and I am sure that if Bill should come to the University we would have both Mr. and Mrs. Forsyth up here often. I am intending this as a compliment, because we would consider both parents intelligent patrons of the University.

Now, regarding a job for Bill; I can give him a job but I would want to talk to Mrs. Forsyth and I hope I have an opportunity of doing so before Bill comes. The reason that I mention the mother is because I had a longer visit with her and I would want to tell her that there are a good many adjustments that a Freshman must make. A fellow sweats with his brain as well as with his muscles, and with all the adjustments that a boy is forced to make, if you tie him down to too much work, then he will not be the superior student that he would be if he put his time in extra study and making adjustments.

If this boy is on my team, even as a Freshman, I assure you that I will check him closely and see that he is not getting around to the point of neglecting his studies. During the time the boys are out for their Freshmen Basketball, I will not let a boy play unless he makes a C average. Each year we drop a good many Freshmen from our Freshmen Squad until they bring their average up to a C. None of the Freshmen are permitted to play in the Freshmen-Varsity game unless they have this average.

I always hold to this for the Varsity for their non-conference games. Now, you can understand that the Big Six rules do not hold to this, but it is my theory of getting boys on the Freshmen Team impressed with the necessity of study, and too, I do not crack down on the boys in a hardboiled way, and say to them that they cannot play if they do not make their grades, but rather I explain to them that a depositor in a bank would not want to put his money in an unsound bank. Then I tell them that neither do I as a coach want to spend my time on Freshmen while I am teaching them the fundamentals, and then see them fail in their fundamentals of academic work or study.

Therefore, I say it is up to them to make good on their end of the bargain by being eligible, and it is up to me to teach the boys the proper fundamentals so that we can consummate the details when we have an opportunity. Therefore, the boy and I understand each other in the beginning.

I have a great many conferences with these boys. I also find out by the grapevine route--no stooging--when a fellow is in trouble. And when he begins to slip I have him in and tell him I have had youngsters of my own, that I have made a lot of mistakes, and if I would have had a fellow, who, in a friendly way, would have advised me, then I know I would not have made the mistakes. If the boy is the right type he will generally snap out of it.

Mrs. Allen was of the type that she believed that a boy should work, just like Mr. and Mrs. Forsyth. Most jobs in Lawrence at filling stations pay 25¢ an hour. We pay 35¢ an hour in Physical Education and Athletic work, or in all University student labor. A good student can reasonably work two hours a day; that is 70¢ each day, and on Saturday he can get in four or more hours. This will make him about \$20.00 a month. Howard Engleman or any of the other boys who worked, never earned more than \$20.00 a month. Vance Hall and some of the other basketball players make \$18.00. Therefore, that is as much as I would advise for any boy who is carrying the extra load of athletics.

I said to Mrs. Allen that rather than have Bob work two hours a day at the filling station, as long as he did not waste away his idle time, that I would much rather see him be given the opportunity of selection, and suggested that as long as he did not presume or impose upon the family that he be given an opportunity to develop. We followed this process and we found it worked wonderfully with him. He was given the opportunity of making his choices.

Now, you can see, Leaford, that every boy presents a separate problem. Perhaps Bill will be different from most any of the other fellows, but since he is President of his Student Council and a fine student, and since Coach Nye did so much for him, I believe that we can carry on the good work.

I would not advise as much work as you suggest, and you are perfectly free to discuss this problem with Bill's father and mother, and if you wish to show them this letter you have my approval. As I stated in my talk at Medicine Lodge, I am not bartering for athletic material; rather I am putting it on a bigger basis. I am saying that the University presents a great opportunity for superior and earnest students. I apply this to athletics as well as academics.

The University is the pinnacle of education in the State, and when these superior and aggressive students come from all corners of the State of Kansas and assemble here, it gives them an acquaintanceship that is invaluable

through life. Leaders meet leaders, and twenty years hence it will be these people who will be running this country. I believe that is the bigger and the better picture, and that is the thing that I constantly emphasize.

You remember I said you challenge a boy and you challenge him at his best. I believe Bill has the stuff and I trust that I may count on your continued friendship and leadership in showing this boy the bigger way.

It was a pleasure to see you and I will await with pleasure another such opportunity in the future.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach

Kansas University,
Lawrence, Kansas

Dear Doctor:

You suggested that I should write you some particulars about Bill Forsyth, and I will do so while the subject is fresh on my mind. If you will pardon me, I will try and give you the details as I see and know them about this boy.

The boy is still young, I think seventeen, but is quiet, and rather serious minded. He has no bad habits as yet, and trains religiously the year round. He has been a good student and popular with his schoolmates, having been elected president of the student council here, and also having been elected to a state office at the Boys State convention at Wichita last year. His home environment is the best.

His B.B. career has been interesting to watch. As a Sophomore he was as good a defensive man as I ever saw in high school, and his floor work was about as good. However he could not make a basket if he shot all night. That condition changed very little during his Junior year. This year we had a new coach who spent a little time changing his shooting style which I guess was all wrong. As a result he was high score man in the Southern Kansas League, in an invitation tournament held here, in the regional tournament at Pratt, and at the state tournament at Salina. While he was a marked man to begin with at Salina, he averaged 18 points per game when he was always tagged by two men and really under pressure all the time.

Gene Johnson watched him at Salina, and said he was good enough to play on his college team this year. Stu Dunbar said and wrote that he was as good a college prospect as he ever saw. I have seen much flashier high school stars than Bill fall by the wayside when they got to the "big time", but he just isn't that type. This boy is just starting to develop, knows that, and wants to be taught how to play B.B. With his natural ability, and his mental makeup he can't help but make good. Our coach here is about a quiet and modest fellow as I ever knew, and yet it is his opinion as expressed to me a few days ago that Bill can and will make any college B. B. team that he tries for.

Bill's father was up to see me this morning to talk about the prospect of Bill coming up to you. As I told you his parents can send him to school, but he has never been away from home before, was raised here in a small town where there is little excitement, and they do not want him to have too much idle time on his hands. For that reason they are very intent on him having some part time work his Freshment year at least while he is getting settled, and I agree that they have the right idea. If you can arrange some kind of work for him so he could earn \$25 or \$30 a month I can guarantee you that you will have the boy next Fall. Understand, I am not trying to dictate to you about this, nor am I saying you will not get the boy anyway, but I thought you would appreciate knowing how the family felt, and this is a sure way of getting him. I am sure he will come to the Relays on your invitation and you can then have an opportunity of talking things over with him.

I can't tell you how much I enjoyed the opportunity of getting acquainted with you and trust that some time I will run into you again. With kindest personal regards, I am,

Sincerely yours,

Leaford F. Cushenbery

LC:MC

P.S. Bill played football here, but intends to devote himself exclusively to B.B. in college which should give him lots of time to learn the game.

April 12, 1941

Mr. Leaford F. Cushenbery, Attorney at Law
Medicine Lodge, Kansas

My dear Leaford:

Well, I see you and I are both getting into the letter writing habit, aren't we?

Well, I have enjoyed the episode, and I appreciate greatly your writing me regarding the unfortunate experience of Bill and Tiny DeWeese. I know such things happen as you describe when the Saturday night drunks roll in at some fraternity houses. As I mentioned, the fact that this fifteen per cent lunatic fringe applies to the university as well as high schools, and this spectacular demonstration on the part of these inebriates has a depressing effect on high school visitors who are not accustomed to such things.

I, personally, will see that Bill is protected from such exposures this time. I would appreciate it very greatly if I could be informed at what fraternity house he stayed last year. You and I will keep this confidential, but I will see that such a thing does not happen again.

Many of these boys go out on Saturday night and all it takes is a sour apple to make some of the boys think they are high. Of course, some of these fifteen per cent do over-indulge; but many of these youngsters are hilariously bent and a cork shot from a beer bottle, if it should happen to hit one of them, would make them tipsy; then they come home to their fraternity house, and, because someone else feels a little hilarious, it makes them more so. And so the evening goes. This causes a bad misunderstanding, and I am frank to say, that this is one of the blots on university life.

I am glad that I wrote you the letter that I did yesterday regarding Bill's not taking too much extra-curricular work his first year. The adjustments are many. If a boy is tied down to a working job, when it is not wholly necessary for him, then his academic work is apt to suffer.

Any letter that I write is for the eyes of Bill's mother or father, and you can assure them that I check pretty closely on my athletes. I do not annoy them or snoop on any of them, but I know what is going on, and I protect my boys from just such things that interfere with

Page 2

Mr. L. F. Cushenbery

April 12, 1941

their doing the job in a first class way. So you can assure Bill's mother and father that if Bill comes up here, I will know enough about what is best for him so that I will not permit environments that will be detrimental for him.

I always have enough time to counsel in a free way with these boys who are tremendously interested in improving themselves.

Thank you so much for enlightening me on this additional angle. With kindest regards, I am

Sincerely yours,

FCA/bb

P.S. I should like to invite Bill Forsyth's mother to sit down and write me a letter regarding her desires, and tell her that I would recommend that letter, and will be glad to work cooperatively with her in attaining her hopes and ambitions for Bill.

MEDICINE LODGE, KANSAS

April 11, 1941

Dr. Forrest C. Allen,
Kansas University,
Lawrence, Kansas

My Dear Doctor:

I received your nice letter this morning, and thank you for it. If our limited hospitality was of any benefit to you, I assure you that you were most welcome.

I don't want you to begin to think that I intend becoming a bothersome letter writer, but I had another thought or two that I wanted to convey to you. Mrs. Forsyth came to see me today to find out whether or not you were actually interested in her boy, and whether or not in my humble opinion he had a good chance of being a varsity man at K. U. It was easy to assure her that she was correct on both counts. More important, she told me that she did not want Bill to work his first year, and I know her well enough to know that she generally has the last word at her house, so if I caused you any worry about the job matter I mentioned yesterday, you can now forget that angle.

Bill and Tiny DeWeese were guests at the Relays last year and had a bad experience. They were lodged at some fraternity house and everything went fine until about midnight when the Saturday night drunks began coming in, woke every body up and caused a regular madhouse to ensue. It worked out too that Bill had to sleep with one of the drunks. Now I am neither an athlete nor a puritan, and might have enjoyed the antics, but those boys didn't, and came home so disgusted, that I have always thought that was the big reason DeWeese was so set against K.U. I realize that you have a limited amount of time for personal attention of the individual boys, but I did want to warn you about this matter as there might be very harmful results if such an episode were repeated this year. I hope you will consider this as confidential as I have no ambition to start a crusade to reform the 15% of the students you mentioned the other night. I am so confident that you will like and want this boy that I do not want anything to happen that might turn him against coming up to you.

With kindest personal regards, I am,

Sincerely yours,

Leaford F. Cushenbery

April 14, 1941

Mr. Donaldean Maison
Lyons, Kansas

Dear Donaldean:

This will acknowledge receipt of your good letter of the 3rd instant, and I am sincerely hoping that you successfully passed the examination which you took at Wichita for the Scholarship from the Phillips Petroleum Company.

In fact, I have written Mr. Paul Endacott, the Secretary of this fund, and I have enclosed a copy of that letter to your good friend, Max White. Paul Endacott was Captain of my ever-victorious 1923 team, and was the all honors convocation man that year. He was a brilliant engineer, a wonderful athlete and a splendid gentleman. I know that he will do everything he can to help you.

I do hope that you will get a job with some oil company in Lyons this summer. If you save some money it will come in mighty handy next year. I will be glad to put in any good word for you that I can. I am wondering if you could not work with Max White on your local job, and if Max needs any help from me to any of the higher ups, it will be a pleasure for me to do all I can. You keep in close contact with Max and I suggest Max do the same with me. We want to help you.

You can get board and room anywhere from \$22 to \$25 a month. If you could have somewhere around \$100 to \$125 saved up this summer, I am sure you could make it because we will give you a job here that will pay you 35¢ an hour, and you can make about \$20 a month working two hours a day and four hours on Saturday.

We will look forward to seeing you the morning of April 19. I should like to know what you plan to study because we can assist you in a good many ways when we know what course of study you plan to take.

Awaiting the pleasure of seeing you and with kindest personal regards and assurances that we will help you in every possible way, I am,

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach

LYONS PUBLIC SCHOOLS
OFFICE OF SUPERINTENDENT
LYONS, KANSAS

April 3, 1941

Mr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear Mr. Allen:

In regard to the Scholarship from the Phillips Petroleum Company I am enclosing a pamphlet of the rules and regulations. This Saturday I am going to Wichita to take the test. I appreciate your interest and would appreciate any help that you might be able to give me. The enclosed pamphlet will explain more clearly than I would.

I am in hopes of getting a job this summer with some oil company here in Lyons that would pay a pretty good salary so that I would be able to save some money for next year. If you might be able to put in a good word for me it probably would help quite a bit.

Board and Room will probably be the major problem of mine. What would it cost me a month to board and room while at school?

I trust that this will help you in regard to what you wanted to know. Thanking you again for your interest I am

Sincerely yours,

*Donaldean
Maison*

Donaldean Maison

March 31, 1941

Mr. Donaldean Maison
Lyons Public Schools
Lyons, Kansas

Dear Donaldean:

We will be happy to have you with us on Saturday morning April 19th at 10 o'clock to shoot some goals and get acquainted with our varsity players. I am having a catalogue of the University mailed to you and we are also sending you a pamphlet of our School of Physical Education.

When anyone enters the University of Kansas from this state, they pay a Matriculation fee of \$10.00. This is paid only once and is obligatory for anyone who enters. The Incidental fee for the College of Liberal Arts, the Engineering School, the School of Education, or the School of Fine Arts is \$25.00 a semester making a total of \$50.00 for the year. Then we have a Health fee of \$5.00 a semester which is \$10.00 a year. We have a hospital that cost a quarter-million dollars and all of the health services are free to the students. It is one of the finest in the United States and was a gift from a philanthropist, Mrs. Watkins. Also, there is an Activity fee of \$12.50 a year. This includes all tuition, incidental, and fee charges and makes a total of \$92.00 a year for everything.

A boy can always work two hours a day at 35¢ an hour which gives him 70¢ a day, and this together with work he can do on Saturday morning will net him about \$18.00 or \$20.00 per month. I am sure you will have no difficulty as most of our boys work. Vance Hall and Jim Arnold both work as do most of our basketball players. Howard Engleman, John Buescher, Don Blair, Marvin Sollenberger, and John Kline all work and pay at least one-half or two-thirds of their expense through school.

If there is any way that I can help you by rendering you any service by cooperating with you in getting you a job, I assure you it will be a pleasure for me to do so.

Max White spoke to me about writing the Phillips Petroleum people regarding your applying for a scholarship from the company for which your father works. Please write me and tell me more about this scholarship

Mr. Donaldean Maison

-2-

March 31, 1941

and I will be happy to write Mr. Kenneth Adams who played on my freshmen basketball team in 1920 or I will write to Paul Endacott, the Executive Vice-president who was captain of my ever victorious 1923 championship basketball team.

I am happy that you feel you would like to go to Kansas University because I am sure you not be unhappy if you should make the choice, and I know that if this is your goal, we will be happy to make you realize it.

Awaiting your reply and with kindest personal regards,

I am

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball and Baseball Coach

March 28, 1941

Dr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear Mr. Allen:

Thank you for the invitation and opportunity of meeting you and the varsity the morning of April 19. I plan to take part in the Relays on Friday and I will be at the Gym at 10:00 Saturday morning as you suggest.

I would like to have some information on K.U. Such as how much the tuition, how much it would take for board and room for a year and such things as that. I am applying for a schlorship from the company for which my father works. Max White has remarked something about it to you I believe. Perhaps I can talk to you some time at your convenience and get the information I desire. I know I would like to go to K.U. if it is possible because It has always been at least part of my goal.

Sincerely yours

Dr. F. C. Allen
University of Kansas
Lawrence, Kansas

Dear Mr. Allen:

Thank you for the invitation and opportunity of
meeting you and the variety the morning of April 19.
I plan to take part in the Relay on Friday and I
will be at the gym at 10:00 Saturday morning as you
suggest.

I would like to have some information from the
U.S. Such as how much the tuition, how much it would
take for board and room for a year and such things
as that. I am applying for a scholarship from the
company for which my father works. Max White has
remarked something about it to you I believe.
Perhaps I can talk to you some time at your conven-
ience and get the information I desire. I know I
would like to go to K.U. if it is possible because
it has always been at least part of my goal.

Sincerely yours

Donaldson
