

June 20, 1941.

Mr. Ed Hall,
Sublette, Kansas.

Dear Eddie:

I am mighty happy to have your good letter of the 18th instant. I am glad that you are not working too hard.

I received a letter from Otto Schnellbacher this morning and I am indeed anxious that this chap attend the University of Kansas. Won't you kindly write me at once giving me the information concerning the propositions that Iba at A. & M. and Frosty Cox at Colorado made Schnellie? I am getting a little tired of having these fellows from out of the state come in and pick off our best boys.

I am sending you a carbon copy of the letter that I am writing Schnellie so that you can see that we want him here. Also when you write me, Eddie, will you tell me if you think that Schnellie can get a part-time job at your fraternity house?

Yes, sir, I do have a very definite desire to help him and I am going to see some of our Kansas people and put this proposition directly up to them. You know I am not for spoiling a boy by making any soft promises to him, but here is one of our own boys that two fellows from out of the state are trying to lure out of our territory. I want Schnellie here and I propose to do something about it. I know what the boy wants is an education and I believe that we can arrange that for him. Of course, he will be willing to work and I believe that we can do things for him that will make him happy at the University and allow him to make it the right way. Won't you write me right away and give me this information?

You tell Schnellie that I am for him and I want him here, and not to make up his mind to go out of the state. Thank you, Eddie, for writing me. I appreciate your interest. Remember, when I say I want a fellow I really want him, and I want you to help me convince him of that.

With all good wishes to you, I am

Sincerely yours,

Director of Physical Education & Recreation,
Varsity Basketball Coach.
