My dear Max:

I had an opportunity to talk with Miss Kenney and she ran over the assignments that you had completed. She stated she sent you correspondence on the 12th of June and that you had two of those completed before the 10th of July, but since the 10th of July you have completed lessons on the 11th, 12th, 15th, 16th, 18th, 19th, 20th, 22nd and 23rd. She feels that you should continue on the forty lessons and complete those and then take your Foods and Nutrition and finish that.

Miss Kenney stated that she was writing a letter to you and after you get the letter I would appreciate your writing me and letting me know your reaction. If you have completed 17 lessons then you almost have half of them finished; maybe you have more than that completed now, but when I talked to her that was the number she had in the files that was graded.

I will thank you to write me and give me the information up to the present so that I may help you in any way I can. Please do not delay in asking anything I can help you with.

With all good wishes, I am,

Sincerely yours,

Director of Physical Education and Recreation  
Varsity Basketball Coach
