Dear Doc.

I have not written you lately because I have been pretty busy studying and also because I have been sick in bed for a week with malaria. I have not been able to study during that time and it has thrown me behind schedule. I still have six lessons to get of the examination to do in Economics.

Do I have to take a course that fits in with my schedule or can I take any two hour course that is available? Will you please find out for me? If I can take a two hour course then I will have 26 hours credit and will be eligible but if ~~I~~ I have to take a 3 hr. course I am afraid that I will not be able to complete the course. If you will find out for me and let me know right away I will greatly appreciate it. Yours truly,
Gnox
