

August 24, 1940

Mr. Wendell H. Link
1217 State Street
Emporia, Kansas

Dear Wendell:

I have been in Austin, Texas and am now connected with the Kansas State High School Coaching faculty, so I have been commuting back and forth occasionally to Lawrence. I find your letter of the 26th ultimo and I am happy to know that you have been working.

It happens that this coming Monday or Tuesday I am planning to leave for Louisville, Kentucky to visit my daughter and grandchildren, and then doubtless I will go from Louisville to Chicago to meet with the N.C.A.A. Executive Committee on the 6th and 7th of September. It may be about the 9th or 10th of September before I will return so I fear I may not be in Lawrence when you come up. However, I trust that you will be able to get along in good shape until I return and if you will drop in the office I will be happy to help you in every way possible.

I note that you are planning to be here for the ten-day training course for cooks of the Co-op houses for next winter. I see you have energy and initiative and that is all it takes for a boy to make it. You can count on me for cooperation and help.

Until that time when I see you I wish you lots of good luck in your preliminary plans.

Sincerely yours,

Director of Physical Education and Recreation
Varsity Basketball Coach
