Dear Dr. Allen:

First of all I trust you remember me. I had intended to see you after I arrived home but working six weeks and you with your summer school, I thought it better to write and arrange a time when I could see you.

I don't plan to continue at New Mexico Mines if I could arrange something with you. I'd like to play basketball under you and hope you are interested to reply. For basketball and more of it.

Sincerely,
Warren Israel
