

June 11, 1940.

Mr. Bill Williben,
308 So. Elm St.,
Bureka, Kansas.

Dear Bill:

I am answering your letter of June 5th.

I am sorry that you were not able to make the Naval Academy, but am happy to know that you like the University of Kansas.

I had a letter from Representative Glay C. Carper which he sent to Lt. Governor C. E. Friend, and he in turn passed it on to me. Mr. Carper stated that he was writing Mr. Gwinn Henry, our Director of Athletics, so I am well acquainted with your background and your friends who are desirous of helping you. I want to assure you of my desire to help you in every possible way.

What do you expect to study, Bill? Of course, this makes some difference regarding the type of work that you might desire, and your hours of work. Do you expect to join a fraternity, or are you foregoing some of those things so that you can stay in school? As soon as I hear from you I will be glad to endeavor to help you in every way possible.

Very sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
