Dr. F. C. Allen
Kansas University
Lawrence, Kansas

Dear Dr. Allen:

Some time ago, I received the principal appointment to Annapolis. Last week I was informed that I failed to meet the qualifications designated by the Naval Academy.

Although it was my original desire to attend Annapolis, I am not at all disappointed in the result. I would like very much to attend college if possible.

Kansas University has always been my goal, if I didn't make Annapolis. A number of my friends have talked with me concerning K. U., and I am very interested.

My financial condition at the present time is none too promising; therefore I will need some form of outside work in order to attend college.

Any recommendations you may desire can be secured from any of my previous teachers, coaches, or employers.

Any information you might have, would be greatly appreciated.

Thank you very much.

Very truly yours,

Bill Milliken
