

August 12, 1939.

Mr. Earl Bozeman,
Nickerson, Kansas.

Dear Earl:

I am very happy to have your good letter of the 9th instant and am pleased that you would like to attend the University of Kansas this fall. I will be very glad to help you in the way of part time employment.

We pay 35¢ an hour, but the school authorities will not let a boy take a full load if he works more than two hours a day. If he works three hours or more they cut him down to 12 hours per semester, and 15 hours a semester, you know, is a regular load. I am telling you these things so that you will understand that the school authorities here are pretty strict in the matter of requiring grades from students.

Many boys feel that they can come to school and work three, four or five hours a day and carry a regular load of classwork. But this is not true, and I think that you should know it. On the other hand, the University is built and run for the average student in the State of Kansas, and while they exact much of the student's time toward his studies, all the students do have time for recreation and play as well as work.

The fact that you are a member of the National Honor Society might make it possible for you to secure a CSEP job while in school, and it might be that you would be assigned to our department. I would suggest that you write for an application blank and fill it out for a CSEP job. Just address Miss Martha Tillman, secretary, CSEP Office, University of Kansas, and ask her to send you a blank.

You have a very fine record and if you are all that Mr. Buell says, you will be one of Kansas' outstanding basketball players because your studies are fine and your athletic prowess outstanding. If you have saved as much as \$100 or \$150 I believe that we can find enough work to help you.
