

August 12, 1939.

Mr. Harley Anderson,  
4130 Baton Avenue,  
Kansas City, Kansas.

Dear Harley:

I regret that I have failed to answer your letter sooner. I have had a full teaching load in the Summer Session, together with direction of the recreation for summer school, and that has been quite a job. It has been a physical impossibility to answer all of the correspondence that has come to my desk.

I imagine that the job I had in mind for you was the job in the towel room. You can appreciate it when you do not know your schedule and when we do not know ours, that we shall have to allow you to enroll first and then endeavor to start you on a schedule in the towel room that will not conflict with your study hours.

Yes, I have the notation before me where I told you that I would endeavor to find you two hours work. I also have a notation reminding me that you are a cousin of Paul Anderson. I will be glad to help you.

With all good wishes, I am

Very sincerely yours,

Director of Physical Education and Recreation,  
Varsity Basketball Coach.
