

I would like to have permission to play a short B team schedule from you and the Athletic Board. Basketball made quite a sizeable sum of money last year and since we cannot play any outside games here at home for profit, I have constantly followed the lucrative scheme of playing away from home and placing a guarantee that will net financial return. I believe I am not selfish in asking this permission since Kansas basketball has always made money and since we scheduled games to make money. For that reason I would appreciate this permission.

Very cordially yours,

Director of Physical Education and Recreation
Varsity Basketball Coach
