Positions - forward, guard, center.  
 \*Indicates rank of player.

**A Comparison of Scoring in the First Half with Scoring in the Second Half of the Season in the Big Six Conference---1929-38.**

Nine years out of the ten, second-half scoring was greater than that of the first half. (Half the season is here defined to mean the first round robin series; not necessarily the first 15 games of the season.) In 1930, second-half scoring exceeded that of the first half by 21.6%; In 1935, second half scoring was 5.1% below that of the first half. The ten year average gives the second half an advantage of 10.1%

The season of lowest scoring was 1932, both halves, and season total. From that date, season totals have shown regular increase (Computed on game average, to equalize for the 46-game season of 1935)

The ~~lowest~~ first half ~~xxxxx~~ scoring has shown increase since 1934, and second half since 1935. (It was the drop in the second half of 1935 that brought down the season total.

In 1932, Oklahoma scored the same the first half as the second.

In 1934 Nebraska, and in 1935 Iowa State opponents scored the same both halves. Omitting these three, the comparisons by schools shows the following:

	I.S.I.	K.U.	KSC	Mo.	Neb.	Okla.	Total
Second half increased over first	9	7	6	8	7	7	44
Second half below first	1	3	4	2	3	2	15
Opponents increased scoring	8	7	7	6	6	9	43
Opponents scoring decreased	1	3	3	4	3	1	15
Years in which both offense and defense improved in second half (Own scoring increased; opponents scoring decreased)	1934	'32 '34	'38	'31 '33 '34 '35	'36 '37		
Years in which both offense and defense was poorer in second half. (Own scoring fell off; opponents gained.)	1938	'31 '35	'32 '34	'32 '36	'33	'35 '38	
Years in which good defense saved season's scoring record.		'33	'37		'35		

Offense ratio (Points scored to 1 for opponent's)

Although Oklahoma has greatest total points in 10 years, Kansas held opponents, to lead on offense ratio basis: The ten year record

	Points.	Op. Points	Offense ratio
Kansas	3538	2872	1.23
Oklahoma	3691	3450	1.09
Missouri	3309	3270	1.01
Nebraska	3322	3299	1.01
Iowa State	2881	3339	.87
Kansas State	3231	3769	.85

Kansas' best year was second half of 1932, scoring 178 to 113, ratio, 1.57

Times teams had ratio of 1.00 or more:	IS	KU	KSC	Mo.	Neb.	Okla.
First half of season	1	8	1	6	4	7
Second half of season	3	8	3	6	6	6

From the K. U. NEWS BUREAU, W. A. Dill, director.  
For Dr. F. C. Allen.

Following are points scored by members of the Big Six  
in conference games, since inception of the conference:

Year	Con.Gms.	Ttl.Pts.	Game ave.
1929	30	1973	65.8
1930	30	1837	61.2
1931	30	1734	57.8
1932	30	1686	56.2
1933	30	1770	59.0
1934	30	1740	58.0
1935	46	2614	62.2
1936	30	2061	68.7
1937	30	2079	69.3
1938*	30	2284	76.1

\*---First 17 games averaged 72.4; last 13 games averaged 80.9.

It will be noted that from 1932 on, the number of points scored per game has show steady increase. The "points per game" is the sum of the points in a given game. For example, in the low year of 1932, the game with the least points was the Iowa State defeat of ~~Nebraska~~ <sup>33</sup> Missouri, 18 to 15, for a total of ~~43~~ points. That same year, the highest total points was 79 in the 46-32 victory of Oklahoma over Nebraska. The other game of these opponents totalled 71 points, and the Kansas 51-19 victory over Nebraska gave the third high total points of 70. The average in 1938 was well above the Kansas-Nebraska high.

In the 1938 season, ~~Nebraska~~ the low total was 43, in the 27-18 victory of Missouri over Nebraska. On the other hand there were several games with scores totalling near 100, with the highest at 107 in the 55-52 victory of Oklahoma over Missouri.
