

From the K. U. NEWS BUREAU, W. A. Dill, director.
For Dr. F. C. Allen.

Following are points scored by members of the Big Six
in conference games, since inception of the conference:

Year	Con.Gms.	Ttl.Pts.	Game ave.
1929	30	1973	65.8
1930	30	1837	61.2
1931	30	1734	57.8
1932	30	1686	56.2
1933	30	1770	59.0
1934	30	1740	58.0
1935	46	2614	62.2
1936	30	2061	68.7
1937	30	2079	69.3
1938*	30	2284	76.1

*---First 17 games averaged 72.4; last 13 games averaged 80.9.

It will be noted that from 1932 on, the number of points scored per game has show steady increase. The "points per game" is the sum of the points in a given game. For example, in the low year of 1932, the game with the least points was the Iowa State defeat of ~~Nebraska~~ ³³ Missouri, 18 to 15, for a total of ~~43~~ points. That same year, the highest total points was 79 in the 46-32 victory of Oklahoma over Nebraska. The other game of these opponents totalled 71 points, and the Kansas 51-19 victory over Nebraska gave the third high total points of 70. The average in 1938 was well above the Kansas-Nebraska high.

In the 1938 season, ~~Nebraska~~ the low total was 43, in the 27-18 victory of Missouri over Nebraska. On the other hand there were several games with scores totalling near 100, with the highest at 107 in the 55-52 victory of Oklahoma over Missouri.
