

## The Official Watch for

Interscholastic Track and Field Meet

## THE WORLD'S MOST HONORED WATCH

THE LONGINES OLYMPIC TIMER, official watch for A this event, was created at the invitation of the Organization Committee as exclusive official watch for the last scheduled Olympic Games, cancelled at the outbreak of the war. It is undoubtedly the finest one-tenth second timing watch ever made, and represents one of the great achievements of the Longines factory with a half century of experience in the ready to serve peace-loving people . . . and fine manufacture of fine split-second timing watches.

Realizing that the war would probably prevent the completion of more of these watches, which take two years to build, all of those made for the Olympic Games were brought to America so that

they could be used at championship meets by the official timers.

Today no Longines Timing Watches are available for sale to civilians, and few conventional Longines Watches are still to be had at Longines jewelers. But, when the war is won, the skill and facilities of the Longines factory will once more be Longines Timing Watches will be available to the sports world...and beautiful and efficient Longines Watches for men and women in all walks of life will again be on sale. Longines-Wittnauer Watch Company, Inc., New York, Montreal, Geneva.
