

Mr. C. O. Burnside
page two

I'm wondering if you, as a good intermittere, could not innocently query Hank and tell him you heard no games were signed up between Kansas and A & M and you wanted to know the real reason for it.

On March 6th, I wrote him confirming my wire in answer to his. This had reference to our game that we played here, March 11th. The reference to Mr. Dolman was to the effect that we had not received the money for a game played Stillwater on February 17th. Last year we waited until August or September to get our money, and I cooperated with Mr. Faulkenstein in an effort to collect the basketball guarantee.

In regard to my letter of April 10th, in which I mentioned making matters difficult, this reference was made because it was last July or August before we got our two basketball games settled. The fact that I sent in my schedule shows definitely that we were willing to play, but I dislike horse-play.

I'm also sending you a copy of the letter I have written him this day. I did not reply to any of the letters except the reply concerning officials for last March.

I will be happy to have a letter from you giving me your reaction of this situation. The reason I took the pertinate jab at him that I did in my letter of April 10th, was because I had talked with Reeves Peters, the Big Six Commissioner, and he had talked with Henry about me. And also, I had talked with Henry and we had agreed to change schedule and he had not done so. Perhaps I was a little too saucy but if I promise a fellow something, I'll do it, and I expect the same thing from him.

With all good wishes to you, the Mrs., and C.O.B., Jr.,
I am,

Sincerely yours,

Director of Physical Education
and Recreation-Varsity Basketball
and Baseball Coach.
