

October 5, 1943.

Lt. William H. Henigh, USNR
Naval Air Station,
Hutchinson, Kansas.

Dear Bill:

We would like to play one of the games in early December so that we can get in shape for the conference race after the holidays. I realize that you will be starting basketball soon, and doubtless you will not be in your best condition, but we would like to open up with you in the early weeks of December, if possible, say the week of December 5 - 11.

The next week they have the Christmas Vespers here and we cannot play due to the auditorium being used for preparations for the big vesper program. The second game, at Hutchinson, can be played to your liking. Won't you let me have an early reply?

Ensign Clif McWilliams, the Penn State center who has been stationed there had expected to play, but he came through Lawrence on his way east with a definite assignment, so you will lose a corking good player. He played with the Chapel Hill Pre-Flight School last winter. He and my son, Bobby Allen, played on the championship team at Pennsylvania two years ago, when McWilliams was studying law and Bobby studying medicine.

Sincerely yours,

PCA:AH

Director of Physical Education,
Varsity Basketball Coach.
