made to the Buffalo Germans. Will you kindly mail the book back to this office when you have finished with it?

There are different angles on the game presented in this book that you might find interesting to peak out a story on our St. Bonaventure - Kansas game. I wrote the book first as a source of information on treatment of athletic injuries for high school coaches. So few of them had the training sufficient to handle these simple injuries. Then I divided the book into individual defense and team defense, individual offense and team offense.

In the back of the book I have several stories under "Tales of Tosteryear". Those are stories of "great games" that have been pulled out of the fire when everything seemed lost. I have dome this to inspire the fellow who is down and out but still has a channe to come back.

It would be a pleasure to have a visit with you when we arrive in Buffalo.

Sincerely yours,

Director of Physical Education, Varsity Basketball Coach.
