Dr. F. C. Allen
Athletic Department
University of Kansas
Lawrence, Kan.

Dear Doctor Allen:-

I have been talking to Lieut. Ted O'Sullivan of the Fort Leavenworth Reception Center about the possibilities of a series of basketball games here this winter between the Soldiers and outstanding university teams.

He told me yesterday afternoon that he had been in correspondence with you relative to some games. The purpose of this letter is to tell you how anxious we all are to have the opportunity of seeing one of your famous Kansas teams in action here at home.

I was surprised at the number of Kansas alumni I discovered when I came over here to work and I know that you will draw well here just as you draw well in every spot where you show.

Northwest Missouri is also exceptionally good high school basketball territory.

Sincerely

A handwritten signature in cursive script that reads "Gene".
