Dear "Tony":

I have your favor of the 12th instant.

Last year when Lieut. Commander Cook and I started negotiations for his game at Lawrence, Kansas, he agreed to come for \$200.00 guarantee with an option of 50% of the receipts. I instigated and carried out the arrangement for the game to be played in Kansas City, for which Great Lakes received \$1186.46 as their share of the receipts.

It has always been my notion that the host team was responsible for the playing arrangements. For years I have been arranging schedules and at no time have we played to a disappointing crowd. I am convinced that Great Lakes will have a splendid turn-out in the proposed Great Lakes - Kansas game in Kansas City on January 30th. We will see to that if you care to play.

Sincerely yours,
