Dear Doc:

Ralph Miller unquestionably will be the DeBernardi of the Big Six conference this season.

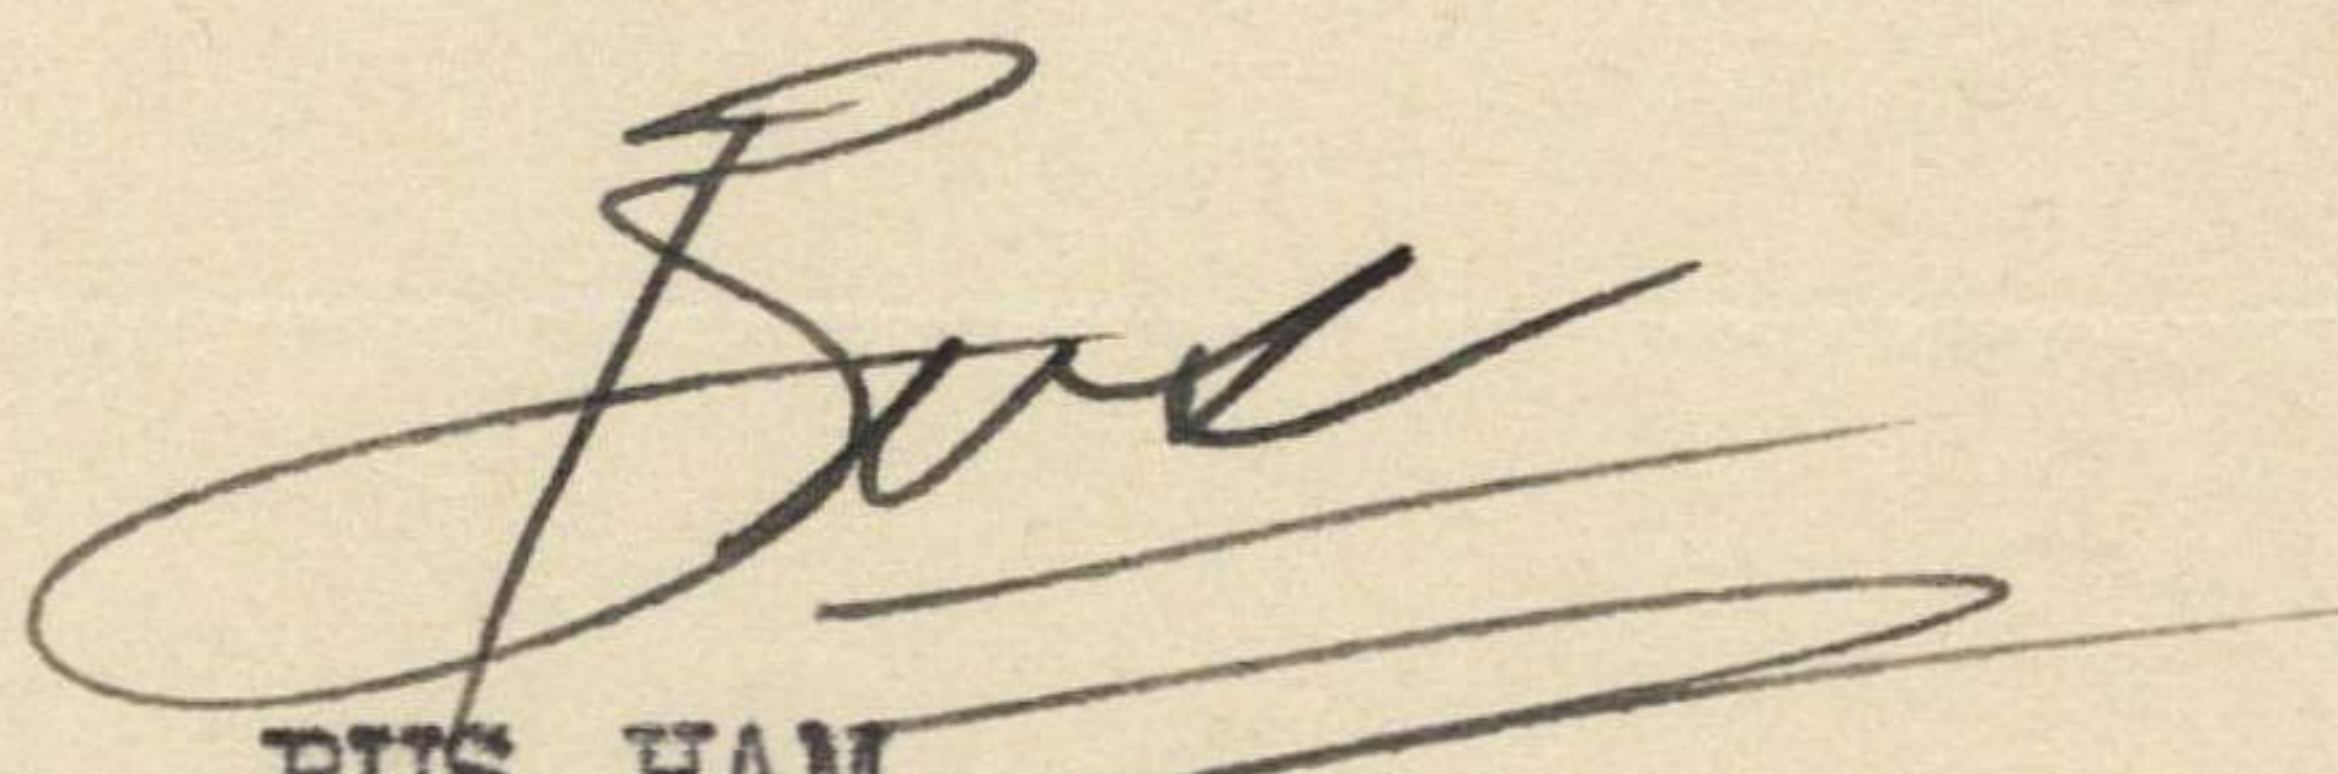

If we had an exceptional picture of this young man we would do a color plate of him like the one recently published of OU's McNatt.

A characteristic candid picture of Miller, with a clear facial study, would fit in nicely.

If your cameraman is unable to produce a picture of this nature, perhaps we can pick it up ourselves when you come down to play OU. That would be rather late in the season, however.

Personal regards.

Sincerely,

BUS HAM
SPORTS EDITOR.
