My dear Friend

As I neither see you nor hear tidings of you, I begin to fear you are suffering in health. — I arrived at home ten days ago, & now write this to let you know that we have deferred in not seeing you, further that it is not likely that we shall ~~go to Lisbon for some time~~, quit the place again for some time, & as I should be pained I should be happy to see you whenever it shall suit you. At all events let me hear from you, as I am afraid that you are unwell. Believe me most sincerely

Yours
