

Albert Edward
Prince Consort of
Q. Victoria

January 1884.

Sir,

You will be aware that it is proposed to hold during the present year an International Health Exhibition at South Kensington, and also that it is intended specially to illustrate in Group III "The Dwelling House". This Group includes all that relates to Water Supply.

Considering the great importance of the Water Supply of the Metropolis it has been suggested that the several Companies supplying London with Water should be invited to make a collective exhibit, and I therefore have the honour to express the hope that the Executive Council will be favoured with the support of yourself as Chairman and the other Directors of your Company

The Chairman,
Chelsea Waterworks Company,
Commercial Road
Pimlico S.W.

in giving effect to this very desirable
Project.

It will embrace all that relates
to the Sources of Supply, Collection, Filtration
and Distribution, as well as to house
storage and fittings, Constant Supply,
Economy and waste of water, and its
use for every domestic purpose.

Of course the Council will gladly
bear all the necessary expenses connected
with this work within the precincts of
the Exhibition.

I have the honour to be,

Sir,

Your obedient servant,

Thos. Barrow

President
