

Monday.

My dear Philds

Will Thursday suit
you to dine with me?
8 or 8.30

What you say of apple
blowen gives me
anxiety. This very
day for the first time
I got a spray of
two sent me, but
anything but full blown.
Also some in my
garden - a potrick

tree enough - is not full
out. Nevertheless I
suppose I had better
begin tomorrow trying
what I can do with
it. If you know
~~by~~ any means of
finding me good
blotting paper, I wd pay
any one well to
begin me as much
as 1/2 p^{er} sheet daily
for some days to
come. I want

sawshed about Fulham
but says there are
no apple orchards
there - all pear &
plum. It wd be
a service if you
could get me some
good.

About the ~~photos~~
autotypes. Two have
been sent me - a
large one - over any
former size I think
- & a smaller one
the same as former

specimens in size.

But I cannot
make out whether
this smaller one
(which I like much
~~the best~~) may
be merely the ^{leaved}
prop which I returned.
The large one is
not quite so very satis-
fying. Y^r affec^t.

GR
