

2
Turdy

My dear Bayler

The chain you mentioned
was not sent today.
Though not objection to price,
I think it might be
less welcome to recipient
if much money was
supposed to have been
laid out. This you know
is often the case. I
fancy the one with
coral beads (as
Smiths, Brompton R^d)
might be likely to
rust; and if the corals
are stiffly fixed there
is always the danger of
~~it~~ the chain snapping
at one of them. If
slipping, all would be well.

Would they confide this
to you to show, on
deposit of price &
forfeit of small sum
if not caught? Or
if you don't feel
confidence in this,
Have you tried ~~London~~
Hawkey St. Oxford St?
- always a lively
place.

Weyman
DR

By the by it looks most
likely to have written
all this without referring
to what causes me
much anxiety on your
account - the internal
pain you mention.
When do you see ^{Dr} ~~Dr~~
I have great confidence
in John Marshall
of 10 Swiss Row: both
with myself & others he
has been most valuable.
When I see you we ^{will}
speak of this.

Marshall you know is
the R.A. Anatomical Professor
& Lecturer on at Univ: Hosp:

Hanway
Passage

seats but
very fragile
from 4 to 6
to 6 more
like nestlets
