

February 15, 1933

Mr. C. W. Amidon, President,
Kansas Electric Power Company,
Lawrence, Kansas.

My dear Mr. Amidon:

I have misplaced for the moment the proposition you made me for the purchase of lots 104, 105, 106 and 119, Breezedale. It is a mighty poor time for a man to be even considering taking on more real estate with its accompanying taxation.

By the way, who owns the lot on which the septic tank is located? It is probable that it is now owned by the Bowersock estate, having been included in a considerable number of lots given as security to Bowersock and afterwards, I think, taken over by him by tax deed and perhaps by foreclosure. None of these lots, as I see it, have any value at this time for building purposes but they might at sometime enter into a scheme for a public park.

I tried to call you but you were out, so take this method of reaching you.

Sincerely yours,

WCS:GM
