Miss Etoile B. Simons
7539 Colfax Avenue
Chicago, Illinois

Dear Etoile:

In the nationwide hunt for scrap metals, old keys are highly prized. If you want to be sure of unlocking the gates of heaven, now is the time to turn in that grip full of old keys that I understand you now have.

Dolph is making a heroic effort to round up scrap for the entire state of Kansas and has accepted a challenge from Douglas County, Nebraska, wherein Omaha is located, for a scrap contest.

Old keys are being turned in here at Lawrence and they make fine scrap.

I won't take time to write more.

Much love,

Of course you would turn in your keys at Chicago. No connection with Dolph's drive, but to aid in a nationwide effort to provide scrap metals for armament.
