

February 26  
1942

Mrs. Harry Johnson  
Dawson, Nebraska

Dear Dorothea:

In preparing our report to the Revenue Department for 1941, we shall have to account for the gift to you of what is known as the Basil Green tract which cost me \$4,000 and which I gave you at the same price.

Henry Asher, who is assisting us in preparing our report, will write you sending papers which he will ask you to fill out to show that the gift was received.

I am not attempting to make this a personal letter, but I can add that we are getting anxious to see all of you.

Lovingly,

Your father.
