

July 28, 1943

Mrs. Kathryn L. Drought
1417 North Blackstone Street
Jackson, Michigan

Dear Kathryn:

I am enclosing a carbon copy of a letter I have just written to Lillian. I also enclose two letters that I have received from her. While she writes you direct, I thought you might be interested in her letters.

There ought to be some way in which you can arrest your lung trouble. A very good friend of mine, the Dean of the School of Chemistry at the University, was stricken with tuberculosis some years ago and was a full year or more living in a make-shift tent in his yard. It did the work and while I think he tries to exercise a little better care in looking after himself than in the old days, he is now carrying a very heavy load. We have a sanitorium in Kansas at Norton which has done good work. I don't know what the situation is in Michigan.

With your will to live, and with your loving husband and family, your attitude would be favorable to complete recovery.

Love and best wishes from your

Cousin
