

April 19, 1943.

Mr. August Ford,
Route 4,
Lawrence, Kansas.

Dear Sir:

According to the weights given us by Underwood's you have taken 7510 lbs. of corn. This would make 107 bushels and 20 pounds. On April 2nd the local market was 95¢ and today the market is \$1.05.

If you will call at our office when you are in town we can arrive at a price for the corn so that we may make an agreeable settlement.

Thanking you, I remain

Sincerely yours,

For W. C. Simons
