Topeka, Kansas

Gentlemen:

Being unable to get tile replacements for my fireplace in Lawrence, I thought it might be possible to order some from your company.

This fireplace was built about twenty years ago of glazed tile, red shading into green. They are 3"x6". If possible I would like to get about ten or twelve of these. I am sending you a crude drawing to show how the tile is shaded.

Will you please advise me whether this tile is available.

Sincerely yours,

W. C. Simons
