Chicago Oct. 22nd 1944

Dear Collie and Gertrude:

Saw John this morning, and also I dropped in yesterday afternoon as his pills needed renewing. Am going to take a barber to see him first of next week, as his face is tender and he needed shaving, but cannot do it himself. They tried it at the home, but he said they hurt, and as his whiskers are tough, I know that they must have, but a barber knows how to handle it.

I found his book and have it. All the stamps are in place and it is paid up to December 31st, but believe I will drop over about the middle of November and pay up for another month to keep ahead.

He was brighter both days, and asked after Gertrude. Also commented about the weather but said he could not go out yet.

Have been appointed Chairman for next year on the AAR, so will continue along the usual line and am glad for it keeps me busy.

Love Bro. Chas.
