Mrs. Don A. Freeman
Route 3--Gull Lake
Brainerd, Minnesota

Dear Grayce:

I am still working now and then trying to get thru the matter in Etoile's trunk. I am practically thru now. I ran across the two things which I enclose.

We had a fairly heavy frost on the 12th, but no real freeze yet.

Plans are going ahead for the observation of our Golden Wedding, and we are counting on you and Don coming.

I won't take time to write a letter at this time.

I enclose also a clipping which I found among Etoile's effects which you may read and throw away.

Love to all,

Encs.
