My dear Mary Jule:

In running thru the accumulation of years, I found this piece of an envelope which is the writing of your great grandfather, John Brady, who came to Kansas at an early date and settled in Monticello, Johnson County, where your grandfather and several of the other children were born. He later moved to Baldwin, but I think died in Lawrence.

The National Printer Journalist contains a picture of your grandfather, the office and the office interior. You may have a copy, but I thought you might like to have this.

We hope all the news you get from Charles is good news.

Love to all,

Your Uncle
