Mr. W. C. Simons,  
722 Massachusetts,  
Lawrence, Kansas.

Dear W. C.:

Your letter of the 20th at hand. If there should be substantial property found belonging to Etoile it is of course possible to have it administered in Kansas. I would not want to administer on something of very small value as it would be cheaper for us to have Mr. Turner go ahead with such property in Iowa.

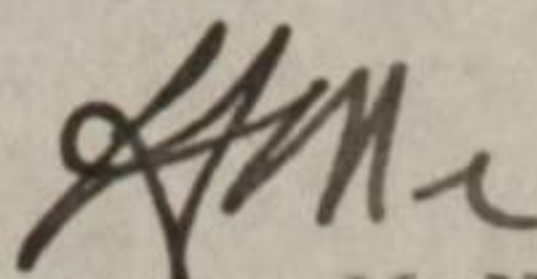

We are all well and the children are in school. They are very much interested in their work and are both doing fine.

I have just hit a jackpot case with about a half million dollars worth of property and it looks like it would probably take two or three years to clear the matter up. It will possibly involve 100 to 150 heirs and will take a long time to locate them.

We are having wheat planted on all our farms, and with all these irons in the fire it keeps me fairly busy.

With love, I remain

Yours very truly,

L. A. McNalley,  
Attorney At Law.
