July 11, 1944.

Mr. W.C. Simons,
The Journal World,
Lawrence, Kansas.

My dear Mr. Simons:—

It is seldom that I make any complaint, no matter what the provocation, but now I have one and am presenting it at headquarters knowing that you can refer it to the right party.

I do not know who writes the "Dear Buddy" letters but whoever he is he needs, in plain Kansas language, a good swift kick in the pants. The statement in last night's letter that some university professors will soon have to go to work is entirely out of place.
