

1417 NORTH BLACKSTONE STREET
JACKSON, MICHIGAN

hospital - Saipan. We hope he can be moved to a hospital in U.S. soon. I asked him if he needed anything we could send him. He said, "No" and added, "Everyone is so wonderful to me, I can never repay it." Imagine one of those boys saying they couldn't repay us.

One of my sister's sons was wounded while fighting in Siegfried Line - he has been in a hospital in France two months. His arm and shoulder was in cast for sometime; he is much better and up on exercise. He has a wife and three lovely children. I hope he can come home on furlough before the Pacific.

Eugene is busy as usual. He has set out 200 each of raspberry and strawberry plants. He sent to Montgomery Ward for 100 Everbearing Strawberry plants.
