Oct 7-

My dear Brother Oliver -

Three bunches of compasses during the last week, have kept me from answering your very nice letters. First the one containing the figures and which we thought very fair to us etc. I took to St. L. and explained to Luddy and Harold, at the bank, and they are to send the payments to you direct and you will surely hear from them soon as they have all the papers and will complete the deal.

No time to write you a real letter now but wanted you to know everything about the deal is O.K.

I shall write a real letter soon -

With love you very much and thank you -
for everything -
Love for all -
Gayer and Don -
