

September 12, 1946

Mr. O. W. Maloney,
Room 208,
Wesley Hospital,
Wichita, Kansas.

Dear Pat:

It would be gratifying to you to know how many persons in Lawrence are deeply interested in your welfare and are continually asking about you. I told Eddie Scott how much you appreciated his card and it pleased him very much.

We are expecting Eileen and the other members of your family here soon and shall be very glad to have them. We all think that winning your fight has not only meant good work on the part of your physicians and your hospital care and the love of your family, but of equal importance has been the courageous manner in which you have met and overcome your affliction. I take off my hat to you.

I know that Gertrude would join me in sending love if she were here. I am at the office.

Love,
