Lawrence, Kansas.

Dear Herb:

Your cheerful greeting card and letter was received while I was at Mayo's and I want you to know that I appreciate it very much.

It is queer how quickly one can have the "props" knocked from under him. There was but one other time in my life that I was hospitalized, and that for six days. It is remarkable what the hospitals can do for a man now days.

Please give my regards to all the members of your family.

Cordially yours,
