

Thurs.

My dear Nellie

I have only a minute to write  
Mary Jule has gotten over the worst of her  
measles but is still in bed in the dark  
Dr. thinks she can be up - by Sunday  
Poor little Sally is at her worst and  
can't lift her little head - Florence  
is with her, <sup>now</sup> Vera is sleeping as she  
was awake all night and I have  
just attended to Mary Jule and she  
is eating her breakfast which  
gives me this minute to write -

Sally's face is one blotch but her  
body is not broken out much yet -  
It is the worst type of measles -  
what is called black measles -  
and it makes them so sick.
